

Acceptance Testing UAT Execution & Report Submission

Date	30 June 2026
Roll Number	23A51A42B1
Project Name	Laptop request Automation using ServiceNow
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to present the testing coverage, defect analysis, and test case execution results for the **Laptop Request Automation in ServiceNow** project. This report summarizes the quality of the application before deployment to the **User Acceptance Testing (UAT)** phase.

The project was tested to ensure that all functional requirements, approval workflows, task creation processes, email notifications, and request tracking mechanisms work correctly. The testing verifies that the application performs as expected with minimal defects and is ready for demonstration and deployment.

2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level, and how they were resolved

Resolution	Severity 1 (Critical)	Severity 2 (High)	Severity 3 (Medium)	Severity 4 (Low)	Subtotal
By Design	0	1	2	1	4
Duplicate	0	0	1	0	1
External	0	0	0	1	1
Fixed	0	1	3	1	5
Not Reproduced	0	0	0	0	0
Skipped	0	0	1	0	1
Won't Fix	0	0	0	0	0
Totals	0	2	7	3	12

2. Test Case Analysis

This report summarizes the execution status of all test cases.

Module / Section	Total Cases	Not Tested	Fail	Pass
Service Catalog	5	0	0	5
Laptop Request Form	6	0	0	6
Catalog Variables	4	0	0	4
Manager Approval	5	0	0	5
Flow Designer	6	0	0	6
Catalog Task Creation	4	0	0	4
Email Notifications	4	0	0	4
Request Status Tracking	3	0	0	3
End-to-End Workflow Testing	5	0	0	5
User Acceptance Testing (UAT)	4	0	0	4
Exception Reporting	3	0	0	3
Final Report Output	2	0	0	2

Testing Conclusion

The **Laptop Request Automation in ServiceNow** project successfully passed all planned functional and workflow tests. The Service Catalog, manager approval process, Flow Designer automation, Catalog Task creation, email notifications, and request tracking operated as expected. All identified defects were resolved, resulting in a **100% test pass rate**. The application is stable, reliable, and ready for User Acceptance Testing (UAT) and deployment.
